Education

Veermata Jijabai Technological Institute, Mumbai — **Aug. 2024 – Present**
B.Tech in Computer Engineering (Minors in Cybersecurity)| CGPA: **8.49**

Prakash College of Commerce and Science — **Aug. 2022 – May. 2024**
MHT-CET: **99.98%ile** | Rank: **62** | HSC: **87.83%** | JEE-Mains: **96.51%ile**

Relevant Coursework

- Data Structures
- Operating Systems
- Design and Analysis of Algorithms
- Computer Architecture
- DBMS
- Artificial Intelligence

Experience

Amaanitvam Foundation
AI Backend Intern | *FastAPI, PostgreSQL, ChromaDB, RAG, Gemini* — **Jul. 2026 – Present**

- Developed an **AI-powered doubt support microservice** using **FastAPI**, **PostgreSQL**, **ChromaDB**, and **Google Gemini**; crafted **15+ RESTful APIs**, reducing backend integration effort by **60%** through a modular API architecture.
- Built a **permission-aware RAG pipeline** by indexing **1,000+ course lessons and digital library content chunks** in **ChromaDB**; integrated **Google Gemini** with semantic search, conversation history, and RBAC for grounded responses.
- Modeled **4+ normalized PostgreSQL tables** using **SQLAlchemy** and **Alembic**; collaborated with a **6+ member cross-functional team** to integrate AI services with the **Node.js** backend, reducing API response latency by **35%**.

Projects

AlphaAgent | *LangGraph, ChromaDB, Neo4j, SQLite, LLMs, AI Agents* — **Mar. 2026 – Apr. 2026**

- Engineered an **11-node multi-agent equity research platform** using **LangGraph**, implementing adversarial **bull/bear analyst debate** and a **JSONPath-based Evidence Auditor** to minimize hallucinations in investment analysis.
- Designed a **Hybrid RAG pipeline** combining **ChromaDB**, **Neo4j BM25**, and knowledge graph traversal via **RRF**; established an **80% deterministic ingestion pipeline** computing financial metrics (**CAGR, EBITDA Margin, D/E Ratio**) from **SQLite/JSON** while **Gemini 1.5 Pro** generated insights.

Banquet IntelliManager | *React, Node.js, Socket.io, Twilio, JWT* — **Jan. 2026 – Mar. 2026**

- Delivered a **full-stack MERN platform** with **7 role-based dashboards** and **JWT RBAC** across **2 access layers**; **automated 100% of installment follow-ups** via **Twilio WhatsApp** reminders and webhooks for live finance tracking.
- Implemented a **Socket.io real-time system** with event-scoped rooms for GRE-to-Kitchen synchronization, reducing check-in time from **2–5 min to under 30 sec**, decreasing food waste by up to **20%**, and maintaining **sub-100ms latency**.

SmartCV – AI-Powered Resume Builder | *React, Node.js, Express, MongoDB, JWT* — **Dec. 2025 – Feb. 2026**

- Deployed a full-stack **MERN application** with **RESTful APIs**, **JWT authentication**, and real-time preview; implemented **NLP-based top-30 keyword extraction**, **5-domain skill classification**, and keyword stuffing detection.
- Architected a **6-factor ATS scoring engine** using **TF-IDF** and **cosine similarity** to evaluate resume-job compatibility and generate actionable feedback.

Technical Skills

Languages: C, C++, Python, JavaScript, SQL, HTML5, CSS3
Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, Socket.io, Twilio API, LangGraph, PyTorch, scikit-learn, NumPy, Pandas, Matplotlib, Librosa
Databases: MongoDB, MySQL, Firebase, Neo4j, ChromaDB
Developer Tools: Git, GitHub, Linux, Postman, REST API Testing, Vercel, Render, ngrok
Core Concepts: Data Structures & Algorithms, OOP, RAG, AI Agents, Multi-Agent Systems, Knowledge Graphs, WebSockets, RBAC, Webhook Integration, Cron Jobs, Competitive Programming, Agile Development, Version Control

Achievements

- Solved **900+ problems** across LeetCode, Codeforces, and CodeChef in Data Structures and Algorithms.
- LeetCode : Knight (Top **5%**) (Current Rating : **1885**, Max Rating : **1891**)
- **Codeforces** : Pupil (Current Rating : **1204**) | **CodeChef** : 2 stars (Current Rating : **1514**)

Extracurriculars & Leadership

Training & Placement Representative | *Training & Placement Office, VJTI* — **Apr. 2026 – Present**

- Represented **92 students** as the primary liaison with the **Training & Placement Office**, coordinating placements.

Deep Learning Mentee | *Project X, VJTI* — **Jul. 2025 – Present**

- Selected for a **deep learning mentorship program**; worked on a **voice cloning** model development and evaluation.

Hacktoberfest Open Source Contributor | *GitHub, DigitalOcean* — **Oct. 2025 – Nov. 2025**

- Contributed **8 merged pull requests** spanning **Deep Learning**, **Full-Stack Development**, and **Algorithms**.
